

# DirectLink LLC – Mobility Expansion Project Overview

DirectLink LLC is a Durham, North Carolina–based venture development company focused on building practical business ventures that expand mobility and create economic opportunity. The company is preparing to launch its first transportation initiative through the Mobility Expansion Project.

## Project: GCG Limousines

The Mobility Expansion Project will introduce GCG Limousines, a professional executive transportation service designed to provide dependable airport transportation, corporate travel, and event transportation. The project is currently in development and seeking funding support to launch operations.

## Community Impact

- Creation of professional driver and administrative job opportunities
- Improved access to reliable transportation for business travelers and residents
- Support for regional economic activity and tourism
- Development of a professionally managed mobility service

## Funding Use

- Vehicle acquisition for executive transportation service
- Insurance and licensing requirements
- Dispatch and service management systems
- Marketing and customer outreach
- Operational startup expenses
